

INFRAGARD – NORTH CAROLINA

ncinfragard.org

FBI Active Shooter Training - Coming this Summer to NC InfraGard

When law enforcement arrives:

- Remain calm and follow instructions
- Drop items in your hands (i.e., bags, jackets)
- Raise hands and spread fingers
- Keep hands visible at all times
- Avoid quick movements toward officers, such as holding on to them for safety
- Avoid pointing, screaming or yelling
- Do not ask questions when evacuating

Information to provide to 911 operators:

- Location of the active shooter
- Number of shooters
- Physical description of shooters
- Number and type of weapons shooter has
- Number of potential victims at location

For questions or additional assistance contact:

Your local FBI Office:

FBI Headquarters National Press Office: (202) 324-3691

Federal Bureau of Investigation
935 Pennsylvania Avenue, NW
Washington, DC 20535

U.S. Department of Justice

ACTIVE SHOOTER EVENTS

When an Active Shooter is in your vicinity, you must be prepared both mentally and physically to deal with the situation.

You have three options:

1 RUN

- Have an escape route and plan in mind
- Leave your belongings behind
- Evacuate regardless of whether others agree to follow
- Help others escape, if possible
- Do not attempt to move the wounded
- Prevent others from entering an area where the active shooter may be
- Keep your hands visible
- Call 911 when you are safe

2 HIDE

- Hide in an area out of the shooter's view
- Lock door or block entry to your hiding place
- Silence your cell phone (including vibrate mode) and remain quiet

FIGHT 3

- Fight as a last resort and only when your life is in imminent danger
- Attempt to incapacitate the shooter
- Act with as much physical aggression as possible
- Improvise weapons or throw items at the active shooter
- Commit to your actions... your life depends on it

The first officers to arrive on scene will not stop to help the injured. Expect rescue teams to follow initial officers. These rescue teams will treat and remove the injured.

Once you have reached a safe location, you will likely be held in that area by law enforcement until the situation is under control, and all witnesses have been identified and questioned. Do not leave the area until law enforcement authorities have instructed you to do so.

Cyber Fire Sale

A Fire Sale is essentially the selling of goods or assets at heavily discounted prices, goods that were damaged by fire. Today it might also refer to any sale where the seller is in financial distress. In the context of the financial markets, fire sale to some in my sector refers to securities that are trading well below their intrinsic value, such as during prolonged bear markets. In the cyber world a Fire Sale is believed to be an all-out attack on our nation's computer infrastructure.

Some perceive a cyber Fire Sale would be a three-stage systematic attack:

Stage 1 is first attacking transportation, railroad and airport infrastructure technology.
Stage 2 is disrupting the financial system infrastructure technology.
Stage 3 the final stage is disabling public utility systems such as electricity, gas lines, telecommunications and satellite systems.

Others speculate a cyber attack might be impulsive and unstructured against any and all computer-based systems. Structured or unstructured the hacker's objective is to tear down the modern day life of America.

Congress has repeatedly tried and failed to pass legislation that would encourage private companies to share information about cyber security threats with the U.S. government. Around six or seven years ago the Defense Industrial Base Cybersecurity and Information Assurance (DIBCIA) began working on a program to establish a voluntary partnership between defense contractors and the government, aimed at sharing information on cyber threats. Later the Department of Defense (DoD) began working with the Department of Homeland Security (DHS) to develop similar programs that would allow the private sector responsible for maintaining critical infrastructure the ability to share information about cyber threats with one another.

Now fast forward, today. Protecting critical infrastructure simply put is InfraGard's mission. And under FBI leadership the number of InfraGard chapters are growing and each alliance membership is expanding. As InfraGard members our obligation is to connect and share information across the 16 critical infrastructures. Uniting as InfraGard members together we can defend against tomorrows advanced cyber threats.

I hope to see you at the FBI's Southeastern Region Atlanta Field Office on September 17th and 18th for the Information Sharing Initiative.

SUICIDE PREVENTION

These are your Facebook friends:*

These are your Facebook friends who have thought about **suicide** in the past year:*

*Based on 240 friends
In any one year, 6% of people aged 18-29 have suicidal thoughts

What can YOU do to make sure your friends are alright?

- Talk to them and express your concern.
- Listen, offer your support, and take them seriously.
- Encourage them to get the help they need.
- Don't stay silent; consult others, such as an RA, a respected teacher or student health services.
- Don't be afraid to bring up the topic; ask if they've ever thought about suicide. They'll be relieved to know you care.
- Know the warning signs. Visit www.suicidology.org/

If you or someone you know is in crisis, call the National Suicide Prevention Lifeline at 1-800-273-TALK (8255).

Upcoming Events

Charlotte Chapter Meeting

Date/Time: Wednesday, July 16 from 1–4 pm

Location: Microsoft, 8055 Microsoft Way,
Charlotte, NC.
